Date : October 10, 2023

This poor guy or girl came up to us as we were outside crying loud, brought tears to my eyes. It is so thin, bones showing. We tried feeding it giving it water and even some warm milk because it wouldn't eat a lot. I hope someone is missing this poor baby. Right now it is curled up in our barn on a blanket in a tote. I can't bring it in because our daughter is highly allergic. I am in the process of calling around to get it help.
