Location: Ohland Road

Date : November 8, 2023

We've seen a potentially lost black cat twice around our property at the end of Ohland Road in Stanfordville

The cat is black with a black and white face and a pink collar. Pictures are attached

The first sighting was Sun Oct 29 and we saw him earlier today (Tues Nov 7)

We haven't been able to get close enough to see if there's a phone number on the collar. Please let us know if we can provide any other information
