Date : June 10, 2024

Not my dog, but the owner posted on New Windsor page. This pup comes to my yard every night, I put food out and she eats it. She's been on the loose since March!!!! She's only 1yr old. Wanders the yards at night. Goes down to the New Windsor little league field. Then wonders through yards at night. But knows that I put food out for her, so she'll wait til dark to eat. She's skittish and runs when she sees anyone. Being she comes to my yard every night, is

there a way to trap her ? The owner has been driving the neighborhood trying to find her.
