Found on Wednesday September 4th at approximately 10:30 in Sloatsburg, NY on Laurel Road in the pine grove area. This is just off Seven Lakes Drive less than a mile from Harriman State Park. He has a collar but no tag and is chipped but the owner must not have registered him. The chip came nacl from a breeder down south but number seems to be out. He was friendly but scared and looked like he had been out at least overnight if not more. He was

limping and scared but still friendly. He's probably already at Hi-tor animal shelter in Pomona, NY. He was taken there by Ramapo Police to be checked out. Hopefully someone ou there knows this dog or the owners. I have a feeling he was abandoned unfortunately.
