This sweet guy, thinking male but not certain, has been hanging around our house on Briarwood Lane in Walden for more than a year. We've named him Thomas. He's been eating daily on a regular basis from our back deck nightly. In cold weather, he will come in our garage and sleep on a heated mat, eat and drink, and use a litter box. We're thinking that he may have been someone's pet at some point or he's lost and someone is missing him.
