His name is Skitch.
My Great Grandmother had passed away early Thursday morning, May 22nd.
In the midst of everything, the cat is missing.

He is a goofy looking boy. He is a darker grey and white cat, almost akin to a "tuxedo" cat.

He has A ROUND FACE and LARGE EYES.
The most identifiable characteristic is he has a CROOKED LEFT PAW

He is a bit skittish but is very sweet/friendly but is probably confused. He has not been outside since she adopted him as a kitten. I am worried he might not know how to find his way back to his house, amongst all the other worries..
