Post on behalf of my neighbor, She is a baby, her name is blueberry. She is friendly and would come when called. She was out 6/16 with the other goats grazing and was last seen around 2pm. We have the powerlines behind us and multiple farms surrounding us, we looked but didn't see her anywhere. In case she wandered further we just wanted to put a post out in case she is seen, we are hoping she makes her way back!
